**REQUEST FOR PROPOSALS (RFP)**

Business process re-engineering (BPR) is a business management strategy, originally pioneered in the early 1990s, focusing on the analysis and design of workflows and business processes within an organization. BPR aimed to help organizations fundamentally rethink how they do their work in order to improve customer service, cut operational costs, and become world-class competitors.

**Business process reengineering - Wikipedia**

Reengineering Process uses a structured scoping process and private sector benchmarking data to establish a target for an employee proposal, or Employee Bid that, upon further negotiation, becomes the MWWD Most Efficient Organization (MEO).

Business Process Reengineering and Managed Competition. City of San Diego Fiscal Year 2009 Proposed Budget - 52 - the employee advantage in a competitive procurement. If the BPR results are implemented in advance of competition, there is a one-year delay from implementation to competition to allow employees the opportunity

**Business Process Reengineering (BPR) - San Diego**

Business Process Reengineering is focused on fundamentally rethinking and radically redesigning a business process to bring about dramatic improvements in performance (Hammer & Champy, The Reengineering Revolution, 1995). The primary goals of BPR are radical change, dramatic outcomes, and transformation or replacement of an overall process.
