It will not waste your time. take on me, the e-book will totally tell you supplementary concern to read. Just invest tiny period to approach this on-line publication transport processes edition 4th as without difficulty as evaluation them wherever you are now.

Transport Processes Edition 4th

Primary active transport, also called direct active transport, directly uses metabolic energy to transport molecules across a membrane. Substances that are transported across the cell membrane by primary active transport include metal ions, such as Na⁺, K⁺, Mg²⁺, and Ca²⁺. These charged particles require ion pumps or ion channels to cross membranes and distribute through the body.

Enterocytes, or intestinal absorptive cells, are simple columnar epithelial cells found in the small intestine. A glycocalyx surface coat contains digestive enzymes. Microvilli on the apical surface increase surface area for the digestion and transport of molecules from the intestinal lumen. The cells also have a secretory role.
